

Transporting your Cake

TRANSPORT DISCLAIMER & RELEASE OF LIABILITY

It's very important to take special care with your cake during transportation. LaViv's Sweet Treats & Catering LLC will ensure your cake is ready for transportation before you pick-up the cake.

When collecting your cake, please ensure that you transport the cake in a vehicle, on a flat surface, to prevent sliding. Please be aware that placing a cake on the seat of your vehicle, lap, or uneven surface may greatly affect the stability and internal structure of the cake, which could result in irreparable damage.

On hot days, it is recommended to travel with the air conditioning on to keep the cake and the environment cool so the cake does not get too warm.

Upon delivery, it is recommended that the cake be taken directly to the venue and stored in a cool location before serving. If the cake is taken home before delivering it to the venue, please ensure the cake is stored in a dark, cool place, away from any direct sunlight or heat. Please use the recommendation above to transport the cake from your home to the venue.

When setting up your cake at the venue, please make sure it is not placed in the direct sunlight.

Once the cake has left the premises of LaViv's Sweet Treats & Catering LLC, we are **no longer liable for any damage that has incurred and will not issue any refunds**. If any repairs or adjustments have been made by you to the cake after leaving, LaViv's Sweet Treats & Catering LLC will not be responsible for the structure or design of the cake after the fact. If the guidelines above are followed, you should have no problems transporting and delivering your cake in perfect condition to your venue. By signing you agree to the terms and agree to follow the transport instructions.

Thank you & enjoy your cake!
